Why Change Fails — And How KSI Fixes That

No clear change strategy

Organizations jump to delivery without defining user needs, stakeholder impact, or a communication plan — leaving people behind.

Resistance goes unmanaged

Stakeholder concerns surface too late. Without engagement and training built into the plan, adoption stalls and ROI erodes.

Change is never sustained

Without metrics, reinforcement, and ongoing support, gains erode within months. The organization reverts to old behaviors.

KSI addresses every root cause through a structured, end-to-end OCM approach that drives real adoption.

KSI's Proven OCM Approach

A structured, four-phase framework designed to achieve measurable adoption

Each phase builds on the last — delivering measurable, sustained change from strategy through adoption.

CHANGE STRATEGY

Foundation for Successful Change

Assembles the data, plans, and stakeholder insight needed to drive user adoption throughout the project lifecycle.

Key Deliverables

- ✓ Change Readiness Assessment
- ✓ Stakeholder Analysis
- ✓ Change Impact Assessment
- ✓ Training Needs Analysis
- ✓ Communication Requirements
- ✓ OCM Strategy Document
- ✓ Communication Plan
- ✓ Change Workplan
- ✓ Delivery Roadmap
- ✓ Adoption Metrics Plan

CHANGE DELIVERY

Executing Change Across the Organization

Drives stakeholder engagement, training, communications, and sustainment activities through go-live and beyond.

Stakeholder Engagement

- ✓ Stakeholder activation workshops
- ✓ Change agent network
- ✓ Leadership alignment sessions
- ✓ Resistance identification

Communications

- ✓ Communication calendar
- ✓ Targeted messaging
- ✓ FAQs & resource hub
- ✓ Go-live communications

Training

- ✓ Training needs analysis
- ✓ Curriculum design
- ✓ Instructor-led sessions
- ✓ Job aids & quick guides

Sustainment

- ✓ Adoption metrics tracking
- ✓ Post-go-live support
- ✓ Reinforcement activities
- ✓ Lessons learned & closeout

Why KSI — The Difference That Drives Adoption

1

Structured Methodology

KSI's end-to-end framework spans readiness through sustainment, ensuring no phase is skipped and no stakeholder is left behind.

2

User-Centered Design

We build change plans around the people most affected by mapping real impact to real roles and designing communications that resonate.

3

Measurable Outcomes

Adoption metrics, feedback loops, and milestone reviews give leadership real-time visibility into change health and ROI.

4

Experienced Practitioners

Our OCM team brings deep change management and system implementation experience, with proven delivery across mission-critical transformations.

Ready to get started?

KSI partners with your team from day one by building the strategy, executing the plan, and sustaining change long after go-live.
