Mapping the Employee Journey

The employee journey tracks every interaction from recruitment to departure. By strategically mapping these five stages– **Recruitment, Onboarding, Daily Work, Growth, and Exit**– HR can bridge the gap between individual performance and organizational capability.

Stage 1: Acquisition & Integration

Recruitment & First Impressions

First Impressions

Align marketing with values to assess cultural fit while using analytics to refine sourcing.

Effective Onboarding

Orchestrate milestone plans that blend compliance requirements with cultural immersion.

KEY FINDING

45% Infrastructure Consistency

Only 45% of leaders believe their organizations use consistent tools for performance management.

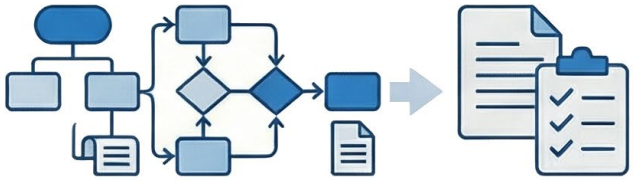
Stage 2: Development & Evolution

Optimizing Daily Work



Standardize core workflows and build flexible policies that support diverse working styles.

Continuous Growth

Transition from event-based training to continuous coaching and transparent internal mobility pathways.

Strategic Exit Management

Formalize protocols to capture institutional knowledge and turn departing employees into brand ambassadors.
